

**Which Brady Label Printers are compatible with SKM software?**

**Answer:** According to Brady’s website, only IP’s, PR+’s, and Globalmarks Brady printers can be used with SKM software.

Brady’s BBP31 & Minimark Label printers are NOT compatible with SKM software.

Below is the link to download the Power Point presentation that Brady created stating on Slide 2 the supported Brady printers (mentioned above) for use with SKM software.
